- Kerala is the core market. It buys 355 units, 43% of the top-10 total of 831, and more than Tamil Nadu (116) and Maharashtra (95) combined.
- Product preference differs by state. Agnihari is mainly a Kerala product, with 154 of its 231 units (67%) there. In Maharashtra, Karnataka and Tamil Nadu, Agnijith leads clearly. There's room to push Agnihari outside Kerala.

Monthly Units Sold and Revenue Trend

- Unit peaks and revenue peaks don't line up. May 2026 has the most units (122, from 83 orders) but only ₹1.6L revenue, because it was driven by Agnihari (50 units, 48 orders). The highest-revenue month is Oct 2025 (₹2.1L) with just 33 units, because one Singapore 10-pack order made up about 70% of it.
- The business is growing. January to July 2026 revenue is ₹6.5L against ₹4.2L for the same months of 2025 (+57%). July 2026 is only half a month, so compare like for like and don't read the last drop as a decline.
